

Achieve Performance Excellence with **SAP MII**

Go proactive with Kellton and fast-track your journey to digitally connected operations underpinned by the SAP Manufacturing Integration and Intelligence (SAP MII) in real-time. As your Certified SAP Solution Partner, we enable you to gain intelligence, operational excellence, and visibility through seamless integration of business-critical manufacturing processes, shop-floor systems, and backend ERP systems using SAP MII tools.

Business Priorities for **leading manufacturing Companies**

While the rapid pace of digital transformation breaking the limits across networks of factories, the pressure to succeed is intense. Companies staying ahead in the competition are capturing benefits across the entire manufacturing value chain. Leaders very well understand and support intelligent innovation and connected systems. With so much at stake, manufacturers are putting significant time and money behind their digital transformations.

Manufacturing intelligence: Real-time analytics engine for efficient decision-making to plan, control, and execute all activities along the supply chain.

Manufacturing integration: ERP connectivity within real-time plant floor applications for comprehensive business interoperability

Security: Network-based services provide highly secure visibility through application-level security, policy enforcement, and encryption.

Scalability and agility: Flexibility to expand and integrate to any scale of Manufacturing systems seamlessly.

Our **SAP MII** offerings

As your Certified SAP Solution Partner, we transform mission-critical systems and deliver scalable digital processes by harnessing SAP MII capabilities. By leveraging these capabilities we help unlock promising benefits like user-configurable reports, decision-making abilities, increased shop-floor operations, and real-time interaction. To drive enterprise-wide ERP transformation seamlessly, Kellton offers **tailored SAP MII implementation** services and support the rapid deployment of efficient and flexible production floor information systems.

Leverage our experience as a leading **SAP technology enabler** for:

End-to-end SAP MII implementation and support

Post-implementation consulting and advisory support

System upgrades and custom developments

Manufacturing processes analysis and optimization

Custom SAP MII extension development

Our approach to **SAP MII** implementation

Success stories

Making manufacturing intelligent with SAP MII

MOMENTIVE™

With over 80 years of legacy and more than 9000 workers, our client was challenged by manual processes and a fragmented business environment. We delivered a transformation from conventional to technology-driven collaborative manufacturing using an SAP MII implementation resulting in 75% reduced manual work and 100% process visibility.
