

Product Engineering Services

Innovate at scale with
Kellton's futuristic

**Product Engineering
services**

Kellton offers end-to-end design, development, & maintenance services that support standout Apps

We build future-proof mobility solutions that drive engagement and productivity and help find new revenue streams. Our geographically diversified, talented, and certified team of product engineers, designers, developers, and strategists have helped some of the most successful and innovative companies build and manage truly transformative digital products.

Digital Application Development

We take a collaborative approach, working closely with our clients, and providing design, development, and support services through **continuous low-risk integration for future-focused Digital Applications.**

Mobile Engineering

We deliver **immersive mobility experiences** by enabling high intelligence through personalization and integration with existing systems, leveraging our deep-rooted expertise in Objective C, React Native, Swift, Flutter, Xamarin, and others.

Quality Engineering

We offer powerful architectural capability via state-of-the-art QA frameworks, testbeds, tools, resolution devices, and more, maximizing the value of your products by **ensuring speed, quality, productivity, security, and ROI, with 99% uptime and faster GTM.**

IoT & Wearables Solutions

We boost a new era of connectivity, efficiency, and innovation by converging IoT, and mobile solutions to build end-to-end industry-specific solutions that **make smarter homes, cities, infrastructure, and even more intelligent wearables.**

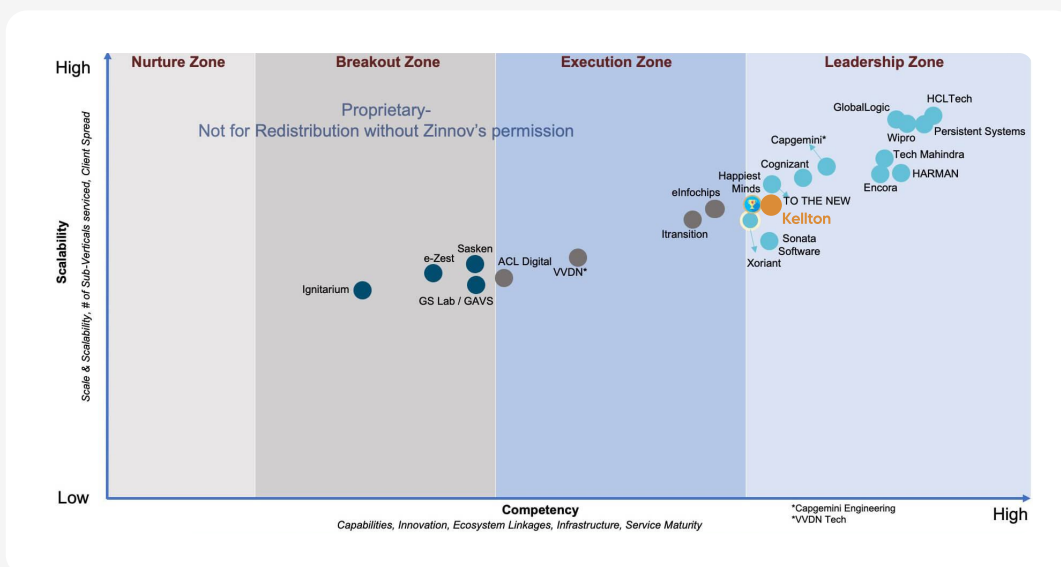

A Zinnov-recognized Leader

A two-time 'Leader' by Zinnov, we made our debut in the Zinnov rankings in 2022 in their ER&D Service Ratings.

Zinnov Zones Digital Engineering & ER&D Service Ratings, 2023 (Small & Medium Service Providers)

Kellton secured a **Leadership** position for the second consecutive year in Zinnov's **Digital Engineering & ER&D Services Ratings, 2023**. Recognized as a Leader in Small & Medium Service Providers and Consumer Software Providers, this accolade reaffirms Kellton's commitment to excellence, innovation, and client success in the digital landscape.

Consumer Software Ratings 2023

Zinnov placed us amongst the "noteworthy players" in the **Consumer Software segment**, enhancing the company's standing in a competitive landscape largely controlled by industry leaders.

Why Kellton for Product Development

Mobile Engineering DNA

14+ years of legacy in digital mobility engineering. Among the first partners of Blackberry® - who introduced smartphones.

Security by design

Ensuring safe and secure patterns are followed during the app design process to deliver breach-proof, resilient solutions.

Early adopters

Stay ahead and relevant by leveraging new-age frameworks like Swiftic, Native Scripts, Sencha, Flutter, and others.

Faster time to market

Automation levers and zero-touch CI/CD pipelines to shorten release cycles and improve quality.
