

Say yes to intelligent operations with **SAP on AWS**

Are you struggling with compatibility issues, rigid legacy infrastructure, performance disruption, compliance violations, and long cutover windows? Make your legacy mission-critical SAP systems more agile with Kellton and AWS. As an AWS-certified partner and SAP S/4HANA implementation company, Kellton supercharge your cloud capabilities by modernizing the core-critical SAP landscape on AWS.

With our best-in-class SAP on AWS managed services, we help enterprises to go beyond a “lift-and-shift” of infrastructure and make their operations intelligent with minimal resource wastage and reduced total cost of ownership (TCO).

Our SAP on AWS offerings

At Kellton, we deliver industry-level capabilities to assess, plan, drive the roadmap and execute an implementation in AWS for SAP S/4 HANA and non-SAP applications with minimal downtime. From re-platforming to reducing tangible TCO, migration to SAP S/4HANA, or fast adoption of the RISE with SAP offering, our best-in-class SAP experts help global businesses accelerate business agility faster and gain a competitive advantage edge. We make your SAP-centric infrastructure future-ready and operations intelligent through our best-in-class SAP on AWS-managed services

Our approach to SAP on AWS implementation

Below is our approach to **AWS Cloud** migration

About us

We are a pioneer in SAP S/4HANA migration, implementation and consulting with 15+ years of SAP experience and cutting-edge digital transformation solutions. We are among the few SAP partners backed by a dedicated SLO expertise and SAP-certified Partner Center of Expertise certification. Kellton has a strong global presence in the USA, Asia Pacific, UK, and Europe with 1700+ world-class SAP experts working at Kellton's dedicated center of excellence.

The Kellton advantage as an **SAP** Transformation Partner

 Certified SAP Solution partner	 Flexible engagement models	 35+ ongoing engagements
 Partner center of expertise (PCoE)	 Minimum turnaround time	 Rapid implementations
 Dedicated center of excellence	 Industry-leading SAP team	 SAP activate methodology

Our esteemed clientele

Success stories

Delivering unrivaled purity and unwavering precision to drive maximum

Enabled a trusted chemical manufacturer in achieving intelligent operations through architecture design and deployment using SAP greenfield implementation. Our certified SAP experts helped in deployment of SAP S/4HANA 1909, NW PO 7.5 and GRC 12 on AWS with 500+ users across US, Germany, China and Japan. In addition, we enabled superior agility and scalability via managed services for SAP applications, SAP basis and AWS hosting.

Unlocked maximum performance improvement for a US-based corrugated material manufacturer

We helped a US-based corrugated material manufacturer and on-demand packaging system provider in frictionless deployment of ECC 6.0 EHP7 in AWS with 150+ users spread across US and Europe. As their go-to SAP transformation partner, we delivered PCoE on-demand support for functional ABAP services, SAP basis and AWS hosting, release upgrades and consulting. Also, we helped in performance improvement through periodic reviews and EWA.

Enabled SAP ERP implementation for a leading comfort solutions provider

Helped our client in process modernization by providing application configuration support and deployed ECC 6.0 EHP7 on AWS across US and China with new technologies to improve system performance. Also, we provided on-demand managed support for SAP application, SAP basis and AWS hosting for better visibility and agile responsiveness across end-to-end sales channels.

We chose a greenfield implementation despite significant risks, including a pandemic. We knew our
